EDUCATION

Howest University of Applied Sciences, Kortrijk, Belgium **2023 – Present**
B.Sc. Digital Design & Development (Devine) · Anticipated June 2027
Major: Creative Development · Minor: Experience Design

SKILLS

Programming: Python, TypeScript, JavaScript, SQL, PHP, C#, HTML, CSS
Frameworks & Libraries: React, React Native, Expo, FastAPI, Node.js, Astro, Vite, GSAP, SQLAlchemy
Backend & Databases: PostgreSQL, MySQL, Supabase, REST APIs, WebSockets, Alembic
Tools & Testing: Git, GitHub, Docker, pytest, Figma
Languages: Portuguese (Native), English (Fluent), Spanish (Conversational), French (Elementary)

PROJECTS

Wolf & Sheep | Python, FastAPI, PostgreSQL, React, TypeScript, pytest
- Rebuilt a Pygame group project into a full-stack game with a shared Python engine, minimax AI with alpha-beta pruning, REST API and persistent game history.
- Implemented server-validated moves, SQLAlchemy/Alembic migrations and 31 automated tests; deployed frontend and backend separately.

Mongmo | React Native, Expo, TypeScript, Supabase, PostgreSQL
- Built a cross-platform pop-up discovery and ordering app with geofencing, QR/GPS check-in, eleven challenge types and live order management.
- Enforced prices, check-ins and points server-side; secured database access and integrated camera, motion sensors and notifications.

Marina Yee — One Corner Off | JavaScript, Vite, GSAP, CSS
- Designed and developed an interactive, scroll-driven editorial website for a MoMu Antwerp university project.

WORK EXPERIENCE

Digital Consultant & Web Developer, Biozone **July 2025 – January 2026**
Kortrijk, Belgium
- Rewrote and reorganized the content of a 20+ page scientific company website into a clear navigation structure.
- Rebuilt the site on Odoo and connected it to the company's Odoo database.
- Advised leadership on digital and technical decisions.

Freelance Web Developer & Designer **2018 – Present**
Belgium / Remote
- Developed websites and digital solutions for small businesses, managing projects independently from requirements gathering through deployment.
- Worked with Shopify, Odoo, and modern web technologies to implement storefronts, website migrations, and business integrations.

COMMUNITY LEADERSHIP

Community Volunteer, Nutriboty Social Responsibility Programs **2019 – Present**
Humpata, Angola
- Contributed to education, nutrition, and community outreach initiatives, including efforts supporting the opening of a primary school for the Tchimbulo community.

Co-Founder, Amigos do Bem **2017 – 2019**
Lubango, Angola
- Co-founded a youth-led volunteer initiative that organized food and clothing distributions and community events for local residents.
